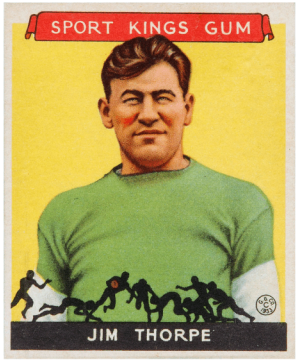
1 AND ONLY!

The common goldfish is the only animal that can see both ultraviolet and infrared light. So when you use your TV remote, your fish sees the beam!

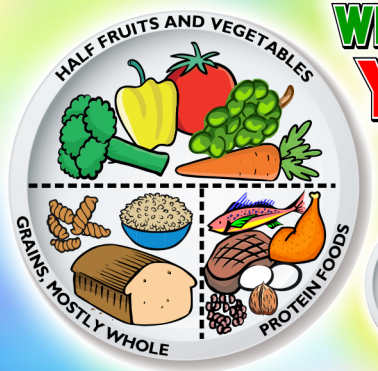
★ Our Nation's History ★



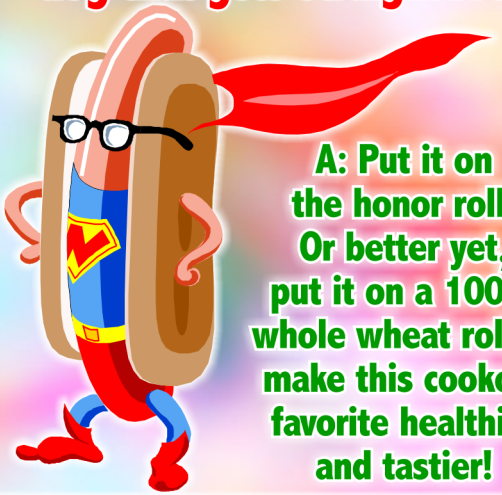
Jim Thorpe, one of the most famous and accomplished of all American athletes, was born on May 28, 1888. Thorpe won both the pentathlon and decathlon at the 1912 Olympics, becoming the first Native American to take gold for the United States. He played six seasons of major league baseball, 12 seasons of professional football, and toured the U.S. as a professional basketball player. His native name *Wa-Tho-Huk* translates as "path lit by great flash of lightning."

★ *With Liberty & Justice for All* ★

What's on YOUR plate?



Q: What do you do with a hot dog that gets straight A's?



A: Put it on the honor roll! Or better yet, put it on a 100% whole wheat roll to make this cookout favorite healthier and tastier!
