

## Lee County School District Strategic Plan

### Vision

The Lee County School District works together to prepare all students for success in a global community.

### Mission

The Lee County School District provides a high quality education in a safe, healthy environment and develops life long learners who become productive members of society.

### Values

- We believe that all students can achieve a high level of success through quality instruction and student engagement.
- We believe in collective responsibility and individual accountability for common identified goals.
- We believe that students are at the heart of every decision made.
- We believe that integrity, openness, honesty, trust, and communication are cornerstones for a successful school district.
- We believe in always seeking better ways.

### Goals

- Goal 1:** Lee County Schools will ensure that all students will receive high quality student-centered instruction.
- Goal 2:** Lee County Schools will work together to foster an environment that promotes positive relationships and honest communication.
- Goal 3:** Lee County Schools will ensure all students will read at or above grade level, achieve college and career readiness and will become productive citizens.
- Goal 4:** Lee County School District will participate in on-going professional development opportunities that will ensure a focused, viable curriculum.
- Goal 5:** Lee County Schools will create a culture which promotes a healthy lifestyle.
