Internet Access Agreement

In order for a student to gain access to the Internet, the student and student's parent(s) / guardian(s) must sign an Internet Access Agreement.

The superintendent is authorized to amend or revise the following board-approved initial administrative procedure as he/she deems necessary and appropriate consistent with this policy. The superintendent is further authorized to amend or revise the Internet Network Access Agreement with the advice of board counsel.

It must be understood by all concerned that the global and fluid nature of the internet network's contents make it extremely difficult for the board to completely regulate and monitor the information received or sent by students. As such, the board cannot assure parents that students will be prevented from accessing undesirable materials or sending or receiving objectionable communications.
